

## THE 2007 DONZI 38 ZR Competition

From its twin quarter-height jet fighter canopy windscreens to its watertight forward bulkheads, the Donzi 38 ZR Competition is the genuine article. This superlative ocean racer was designed around a next generation ventilated hull, which offers ideal balance and handling, blistering speed, and an unparalleled rough-water ride.

In addition to its six APBA National Championships, three APBA/UIM World Championships, and one P1 Powerboat / UIM World Championship, the Donzi 38 ZR Competition has earned unanimous praise from critics since its introduction. It was named Powerboat Magazine's "Offshore Vee Bottom Boat of the Year" in 2003, it was featured prominently in the film *Bad Boys II*, and it has enjoyed starring roles in poker runs from coast to coast. In summary, the Donzi 38 ZR Competition is perhaps one of the most coveted, respected, and sought-after v-bottom boats built today.
